ABOUT US

Giveloop is where humanity meets action. We connect people who need help with people who want to help — instantly, directly, and without borders. No middlemen, no delays — just real impact, one loop at a time.

Because giving should be simple. And kindness should travel.

OUR MISSION

"To design a human-powered giving ecosystem, where technology meets empathy — enabling peer-to-peer aid that's instant, trustworthy, and deeply personal. We exist to make giving not just easy, but meaningful."

OUR VISION

"To reimagine generosity as a human right — building a global circle where help travels without borders, and every individual can be a giver, no matter who they are or where they come from."

WHY CRYPTOCURRENCY

Cryptocurrency is considered safe due to its decentralized nature, cryptographic security, and block chain technology, which ensures transparency and immutability of transactions. Users retain control over their funds, reducing counterparty risk. Additionally, wallets can be secured with private keys and multi-factor authentication, enhancing protection against unauthorized access and fraud.
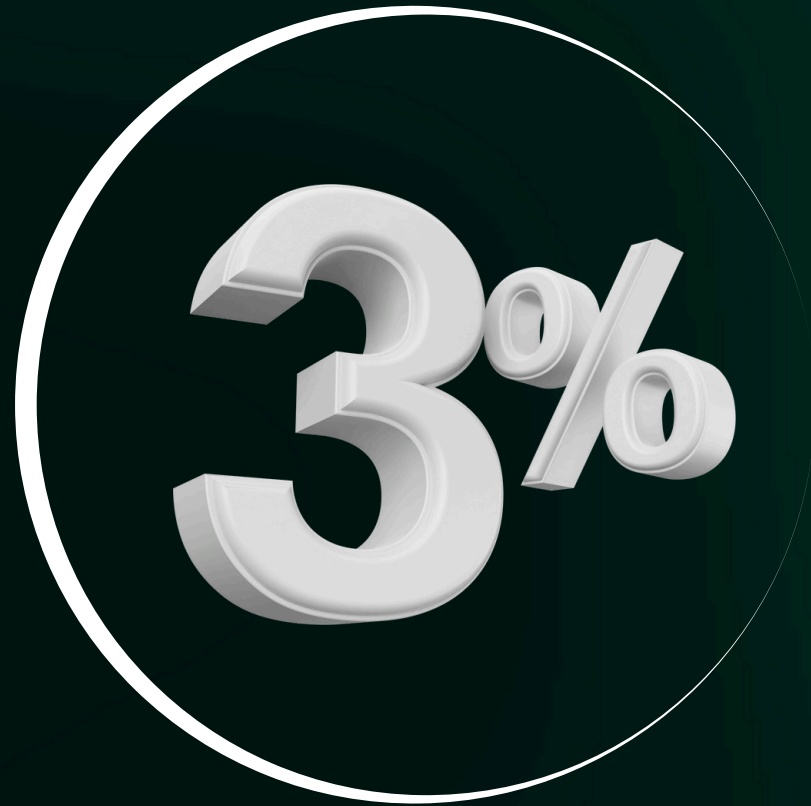

SELF BONUS

10%

EXTRA
BONUS

LEVEL BONUS

6.3%

LEVEL	PERCENTAGE
